Service Brochure

September 2020

Service Overview

You have tried Facebook ADs on your own and have failed to bring in customers. It is not your fault. The process looks simple but it is not. Don't worry. We have services that will transform your business even in these difficult times.

Direct Calls

We will run a Facebook AD campaign that will get your phone ringing. We will get those prospects calling your business with a 30-day campaign.

During Business Hours

We will run ADs only during your business hours so your AD Spend does not get wasted but potential customers calling when you are not available. Unless you have a 24/7 answering service.

Lead Generation

Without new leads calling & visiting your store your business is doomed to fail. We will build a sales funnel and landing page that will collect your prospect's phone, email, and name and send it to you within minutes so you can follow up and generate a sale while the contact is interested in your business.

Done For You Service

We offer our clients a done for your service where we handle your sales follow-up with emails and content you provide so your potential customer has your business top of mind.

Once the customer is ready to buy we send them to you! You close the warm lead and make a new customer. This service best fits the high-ticket items & products that you sell. If you have any questions feel free to contact us.

Details

We offer our clients a simple payment option and we limit how many clients we work with each month so we can give you quality service and excellent results for your AD Spend.

AD Spend - Marketing money paid directly to the AD platform such as Facebook.

30 Day Contracts - No long-term agreements. You can hire us each month if business is good or you can use our services only when sales are slow.

Direct Calls - Actual customer calls calling you during business hours.

Lead Generation - Prospect information collected on a spreadsheet and available to you 24/7.
